In case of inhalation: Remove to fresh air. Get medical attention for any breathing difficulty.

In case of skin contact: In case of contact, immediately wash skin with soap and copious amounts of water.

In case of eye contact: In case of contact with eyes, flush with copious amounts of water for at least 15 minutes. Assure adequate flushing by separating the eyelids with fingers. Call a physician.

In case of ingestion: If swallowed, wash out mouth with water, provided person is conscious. Call a physician.

Most important symptoms and effects, both acute and delayed:

Inhalation: May be harmful if inhaled. Material may be irritating to mucous membranes and upper respiratory tract.

Eyes: May cause eye irritation.
