In case of skin contact: Immediately wash skin with soap and copious amounts of water.

In case of eye contact: Contamination of the eyes should be treated by immediate and prolonged irrigation with copious amounts of water.

In case of ingestion: If swallowed, wash out mouth with water, provided person is conscious. Call a physician.

Most important symptoms and effects, both acute and delayed:

Inhalation: Irritating to mucous membranes and upper respiratory tract; may cause asthmatic condition, bronchitis.

Eyes: Causes severe eye irritation, ocular disturbances, conjunctivitis; may cause blindness.

Skin contact: Causes irritation, dermatitis, ulceration of the skin.

Ingestion: May cause gastrointestinal irritation.

Indication of any immediate medical attention and special treatment needed: Treat symptomatically. Show this safety data sheet to a physician or emergency room.
